Dear friends! I am very pleased that during the past few years, brothers and sisters have come from Australia, USA and New Zealand to serve in both church construction and in the local Orphanage. They have repaired many rooms which are used by the church for outreach to the community. We want all our building to serve God! Together we can serve God to save our city. For us, the team are a great help and blessing. Come join us and serve together here. We are already praying for the team for 2015 & 2016; we will be very glad to meet you! **Pastor Nikolai**

Location: Borovichi is a city between Moscow and St Petersburg. The population is about 70,000 people making it a very small town by Russian standards. It has a combination of multi-story apartment buildings as well as many traditional wooden (log) houses. The Msta river runs through the town.

The winter temperatures do vary but it can be anywhere from -5c to -25c in this time period with lots of snow. Dressing in layers is the secret to survival. You will fly in and out of St.Petersburg.
